
”PV Market in Japan 2019”

– **Current Status and Future Prospects** –

Price: 50000 JPY/copy

(Published in October 2019)

This report provides a comprehensive analysis of the PV market in Japan, one of the key PV markets in the world with outstanding opportunities for PV players thanks to the generous government incentives and the nation’s high motivation for renewable energy after the Great East Japan Earthquake in 2011 and the Fukushima nuclear disasters. This report covers the **current status** and **outlook** of the PV market in Japan, including the **Feed-in Tariff (FIT) program**, **statistics of approved & installed projects under the FIT program**, outlook of the **post-FIT period**, **new PV applications** and **business models**, which will help you better understand the Japanese PV market. The **outlook of the PV market in Japan** provides an overview of introduction potential. **PV players** including developers, EPCs and financial institutions are listed in tables and figures. Unlike the previous “PV Market in Japan” reports by RTS, this report consist of a large number of tables, graphs and figures so that you can understand the Japanese PV market visually.

To order, please fill out the order form on the reverse side and send via facsimile to +81-3-3553-8954 or e-mail to order@rts-pv.com.

Format: Printed Copy + PDF (CD-ROM)

Table of Contents

1 Current Status of the Japanese PV Market

- 1.1 Evolution of the PV Market in Japan
- 1.2 Installed Capacity of PV Systems
- 1.3 Price of PV Systems
- 1.4 Approved and Commissioned Capacities of PV Projects in Japan
- 1.5 PV module shipments

2 Outlook of the Japanese PV Market

- 2.1 RTS Outlook of PV Installed Capacity in Japan by Fiscal Year and Cumulative PV Installed Capacity (DC-based)
- 2.2 PV150: 150 GW PV Installed Capacity in Japan by 2030
- 2.3 PV150: New Target PV Installed Capacity 150 GW by 2030
- 2.4 Fields of Electricity Demand where PV Should Play a Role in Japan
- 2.5 PV150: Future Structure of PV Power Generation in Japan
- 2.6 PV150: Eight Key Action Plans to Achieve PV150 (Proposal)
- 2.7 PV150: Dissemination Framework through Collaboration among Ministries and Agencies toward Achieving PV150
- 2.8 PV150: Outlook of PV Power Generation by Achieving PV150
- 2.9 PV System Price Forecast under Accelerated Scenario

3 National Policies and Measures on PV Power Generation

- 3.1 National Target: The 5th Strategic Energy Plan (July 2018)
- 3.2 Feed-in Tariff (FIT) Program for Renewable Energy in Japan
- 3.3 Financing of PV Projects under FIT Program
- 3.4 Other Support Measures

4 PV Industry in Japan

- 4.1 PV Module Shipment by JPEA Data
- 4.2 Domestic PV Module Shipments by Manufacturer (2018)
- 4.3 PV Cell/ Module Production
- 4.4 Trends of Production Capacity and Overseas Deployment by Major PV Manufacturers in Japan
- 4.5 Shipments of PV Inverters in Japan
- 4.6 Share of PV Inverter Suppliers in 2018

5 Overview of the PV Industry and PV Players in Japan

- 5.1 Structure of the PV Industry and Major PV Players in Japan
- 5.2 Major Players in the Japanese PV Module Market

- 5.3 Major Players in the Japanese PV Inverter Market
- 5.4 Major Players in the Field of Supporting Structures, Metal Parts and Foundation Construction in Japan
- 5.5 Major Players in the Japanese EPC Market
- 5.6 Major Players in the Japanese O&M Market
- 5.7 Business Scope of O&M Service by Major Players in Japan (by application and system size)
- 5.8 Major Power Producers and Suppliers (PPS) which Procure PV Electricity in Japan
- 5.9 Major Financial Institutions Financing PV Projects in Japan
- 5.10 Power Producers Ranking by Number of Projects and Capacity (≥ 2 MW, started operation) as of May 2019
- 5.11 EPC Ranking by Number of Projects and Capacity (≥ 2 MW, started operation) as of May 2019

6 Storage for PV Power Generation

- 6.1 “Year 2019 Issue” for Residential PV Systems
- 6.2 Storage System Corresponding to Renewable Energy

7 Recycling and Disposal of PV Modules

- 7.1 Working Group related to Securing Funds to Cover the Cost of Disposal, etc. of PV Facilities
- 7.2 PV Module Recycling Companies in Japan

8 New Markets and Business Models

- 8.1 New Market: Floating PV (FPV) Market in Japan
- 8.2 New Market: Solar Sharing (Agro-voltaics)
- 8.3 New Business Models
- 8.4 Electricity Market Reform and PPS

Appendix

- 1: Irradiation Map of Japan: Annual Irradiation for Optimal Tilted Angle
- 2: Output of PV System by Prefecture (Map)
- 3: Conventional Electric Utilities in Japan
- 4: Basic Information of Japan
- 5: PV Systems in Japan (Photo Gallery)
- 6: PV Activities in Japan in 2018/2019 by Sector *PDF only (CD-ROM)

RTS Corporation is a Japanese consultancy exclusively engaged in PV power generation. Our research and investigation capabilities contribute to METI, NEDO, AIST, JPEA, leading PV manufacturers, inverter and other balance of system (BOS) suppliers, PV project developers, EPCs, financial institutions, major electric utilities, polysilicon and other material manufacturers, manufacturing equipment companies and a wide range of PV players in Japan and overseas. Our monthly report “PV Activities in Japan and Global PV Highlights” has been acquiring an international reputation.

“PV Market in Japan 2019”

– Current Status and Future Prospects –

(Published in October 2019)

10000 JPY/copy DISCOUNT
for subscribers of “PV Activities in Japan and Global PV Highlights”

Price: 50000 JPY/copy

ORDER FORM

DD / MM / YY

Please fill in block letters.

Date: _____

First Name Prof. / Dr. / Mr. / Ms. (please circle)	Family Name
Title	
Company / Organization	
Address	
City	State
Postal code	Country
Telephone	Facsimile
E-mail	

❖ **Order:** (Please check and fill the blanks)

- 1) Duplication of the publication/data (e.g., by printing, photocopying) for the benefit of a third party is prohibited.
- 2) Circulation of the original printed version or the electronic version outside of your division of the organization is also prohibited.

I agree with the conditions and purchase of a copy of “PV Market in Japan 2019” (Hard copy with a CD-ROM including electronic data of the report)
(50000 JPY/copy, including shipping cost)

***Japanese consumption tax will be added for companies located/operating in Japan**

Since my company subscribes “PV Activities in Japan and Global PV Highlights”,
10000 JPY/copy discount should be applied.

I would like to receive three latest back issues of RTS monthly newsletter
“PV Activities in Japan and Global PV Highlights” (free of charge)*

*** Purchasers of “PV market in Japan 2019” are eligible for receiving the latest three back issues.**

“PV Activities in Japan and Global PV Highlights”, which has been issued since August 1995, is covering the monthly trends of all the sectors related to PV in Japan, ranging from news from national government to project developers.

❖ **Payment Options:**

Credit Card (VISA or Master Card) ***for international customers only**

* If you would like to pay by credit card, please contact order@rts-pv.com by e-mail.

Bank Transfer* (Customer is responsible for the bank transfer fee.)

* If you would like to pay through a bank transfer, we will send you the invoice with our bank account details.
